As you have come to expect, Swanstrom Tools continues to bring new and innovative hand tool designs to market. We are proud to introduce our Signature Series of Stainless Steel carbide cutters that are 100% American made. The Signature Series cutters are available in a wide variety of head and tip configurations to meet all of your production needs.

Corrosion resistance is an often overlooked attribute when it comes to hand tools. The Swanstrom Signature Series is the first of its kind, combining the precision that you've come to expect from Swanstrom carbide cutters and the corrosion resistance of a Stainless Steel hand tool frame.

— John O. Swanstrom
